TAIWAN AND THE PHILIPPINES

- Taiwanese tourists have visited the Philippines, and cultural exchanges have taken place for so many years. Both countries have promoted tourism and cultural exchange programs, allowing for greater interaction between our peoples. Taiwanese tourists visit the Philippines for its beautiful beaches and scenic spots, while Filipinos work and study in Taiwan and vice versa.

HEALTHCARE SEEMS TO BE A VERY PROMISING AREA OF COLLABORATION AND EXCHANGE. TAIWAN IS A HUB FOR HEALTHCARE TECHNOLOGY AND INNOVATION.

- The country is particularly known for its excellent healthcare facilities and medical expertise. It has implemented an extensive and efficient electronic health records system, which helps streamline patient care, improve the coordination of healthcare services, and reduce administrative overhead.

Here is our hope that our relationship will flourish more and deeper in the coming years.
- We look forward to this unending relationship.
